

PRESS RELEASE!

Timpte Trailers, the industry leader in the manufacturer of bulk commodity trailers has just introduced a new “Easy Flow” hydraulic remote control trap opening system.

NOW AVAILABLE FROM “TIMPTE”

NEW “PATENT PENDING”

The new “Patented” “Easy Flow” Remote Controlled Hydraulic Trap Opening System from Timpte

Designed to be the most efficient trap opening system in the Industry.

Easy & Reliable, Great Value, “Most cost effective way to open your traps”

Two hydraulic cylinders are installed on each side of the trap frame for effortless trap operation. Trips from the field to the elevator or bin site are now even faster with Timpte “EASY FLOW”

The operator can open the trap from the side of the trailer, the cab of the truck, or use the RF wireless standard remote.

Electrical connectors and radio receiver are enclosed inside the control box to protect them from the elements.

Timpte is now offering a hydraulic trap opening system that is the easiest opening trap in the industry. The “Easy Flow” trap system has been engineered and thoroughly tested to be effortless, secure, and reliable.

Serving the AG Transportation Industry since 1884
