

## PRESS RELEASE!

David City, NE – TimpTe Industries, the industry leader in manufacturing dry bulk commodity trailers has just introduced the next generation of power tarp systems with remote control technology.

The Thunder Power Tarp 5000 Series is now available through TimpTe’s dealer and branch network. Many of the components used in this system are industry standards with a proven track record.

Popular Features & Benefits include:

- TimpTe Supported System – No 3<sup>rd</sup> Party
- Remote control technology
- TimpTe “Peace of Mind” 3 year limited warranty on the tarp system
- TimpTe “Peace of Mind” 5 year limited warranty on the motor
- TimpTe “Peace of Mind” 1 year limited warranty on the tarp material
- Improved chrome motor case with internal reinforcing
- Control arms are made of specially treated extruded aluminum that is polished to a mirror finish
- Pivot arm connection consists of a “Knuckle Pivot” That keeps the tarp tension tight on the windy days and also has the ability to climb over heaped loads
- Pivot arms have three different adjustments for various load conditions
- The motor drive connection has a HD aluminum extruded adapter for a solid connection and long life
- Tarp locks tight against the latch plate for maximum load protection
- Includes sealed membrane push button manual control box with wireless remote control for ease of operation
- Installed with HD front and rear mounting brackets for a secure connection
- “Easy Motor Disconnect” and manual handle for emergency operation

The Thunder Power Tarp 5000 Series is available on all TimpTe models or other brands of grain trailers. Contact your nearest branch or dealer or contact:
